## Relevant Experience

- October 2023–October 2025 **Senior Software Engineer in Test**, *ContactMonkey*, Toronto, Canada.  
As a senior software engineer in test, I was responsible for establishing end-to-end test automation as well as building quality engineering overall in a growing engineering organization.
- October 2022–May 2023 **Developer Advocate**, *Code Intelligence*, Bonn/Remote, Germany/Canada.  
As a developer advocate at an early-stage startup, I focused on content engineering. This included written and video content based on fuzzers generally and Code Intelligence's main product CIFuzz in particular.
- March 2018–August 2022 **Solution Architect**, *Sauce Labs*, San Fransisco/Remote, USA/Canada.  
In this customer-facing role, I provided post-sale technical guidance and advice to enterprise customers working with Sauce Labs. This included developing best practices for Sauce products, troubleshooting test automation issues and demoing new and existing features to existing customers, primarily working with Python-based customers and tools.
- April 2017–February 2018 **Test Developer**, *JUICE Mobile*, Toronto, Ontario.  
I worked with a programmatic ad platform, primarily developing a service-level or API test framework in Python. I worked on a team of 10 developers as an test development specialist working with a Django-based app.
- October 2010–October 2016 **Test Developer**, *CaseWare International*, Toronto, Ontario.  
I worked primarily with the CaseWare Time product. I wrote and maintained automated regression and acceptance tests, emphasizing maintainability in my test code. This included working with Java-based Selenium tests for Time on the Go, Time's web-based version and SilkTest suites for Time, the primary desktop product.

---

## Education

- 2007-2009 **MSc - Applied Mathematics**, *The University of Western Ontario*, London, Ontario.  
Research area: Mathematical Biology
- 2003-2007 **BSc - Mathematics**, *Trent University*, Peterborough, Ontario.  
Dean's Honour List, 2003-2007

---

## What I'm Looking For:

- Python: for web development, test automation and more, I've been working with Python professionally for 8+ years
- Test Automation and Architecture: I've worked at all levels of the test automation pyramid and would like to continue to do so
- Creative Opportunities: In addition to writing code, I enjoy creating video, text and visual content for engineering teams.

---

## Tools I Love

- Requests: Probably the best library in Python
- Visual Studio Code: writing code and prose in several languages
- Claude Code: For analyzing large codebases, generating tests, and working through my thought processes
- Taking short walks along the lake, for excellent debugging

---

## Tools I've Used

- o FastAPI, for writing RESTful API services that are...fast
- o Django, when you need a solid web development framework
- o Jenkins and GitHub Actions, for automating workflows and handling development tasks on teams
- o Camtasia, for creating captivating video content
- o Claude Code, for analyzing large codebases, generating tests, and working through my thought processes
- o Claude, Linear, and MCP, creating and manage tickets and projects, right from your command line.
- o Selenium WebDriver: For all your browser testing needs

---

## What I've Done, in Chronological Order

- o Built <https://theoremsasaservice-production.up.railway.app/> as a project to learn some more math
- o Built a browser-based test framework in Playwright with Typescript for a scale-up
- o Built a unit test suite for an open source project called Proselint, writing approximately 50 test functions in Pytest.
- o Built an API test framework for a programmatic ad platform product using Python. This tested the API layer of the internal application using approximately 200 tests with Pytest and requests.

---

## Interests

|              |                                                                                                                             |
|--------------|-----------------------------------------------------------------------------------------------------------------------------|
| Food         | I enjoy eating and cooking food of all kinds. Currently living in Toronto which an excellent food city overall.             |
| Art          | Current interests include work by Agnes Martin, Josef Albers and modernist abstraction.                                     |
| Being Online | I am quite active on social media, including Mastodon <a href="https://mastodon.social/@joshin4colours">@joshin4colours</a> |
